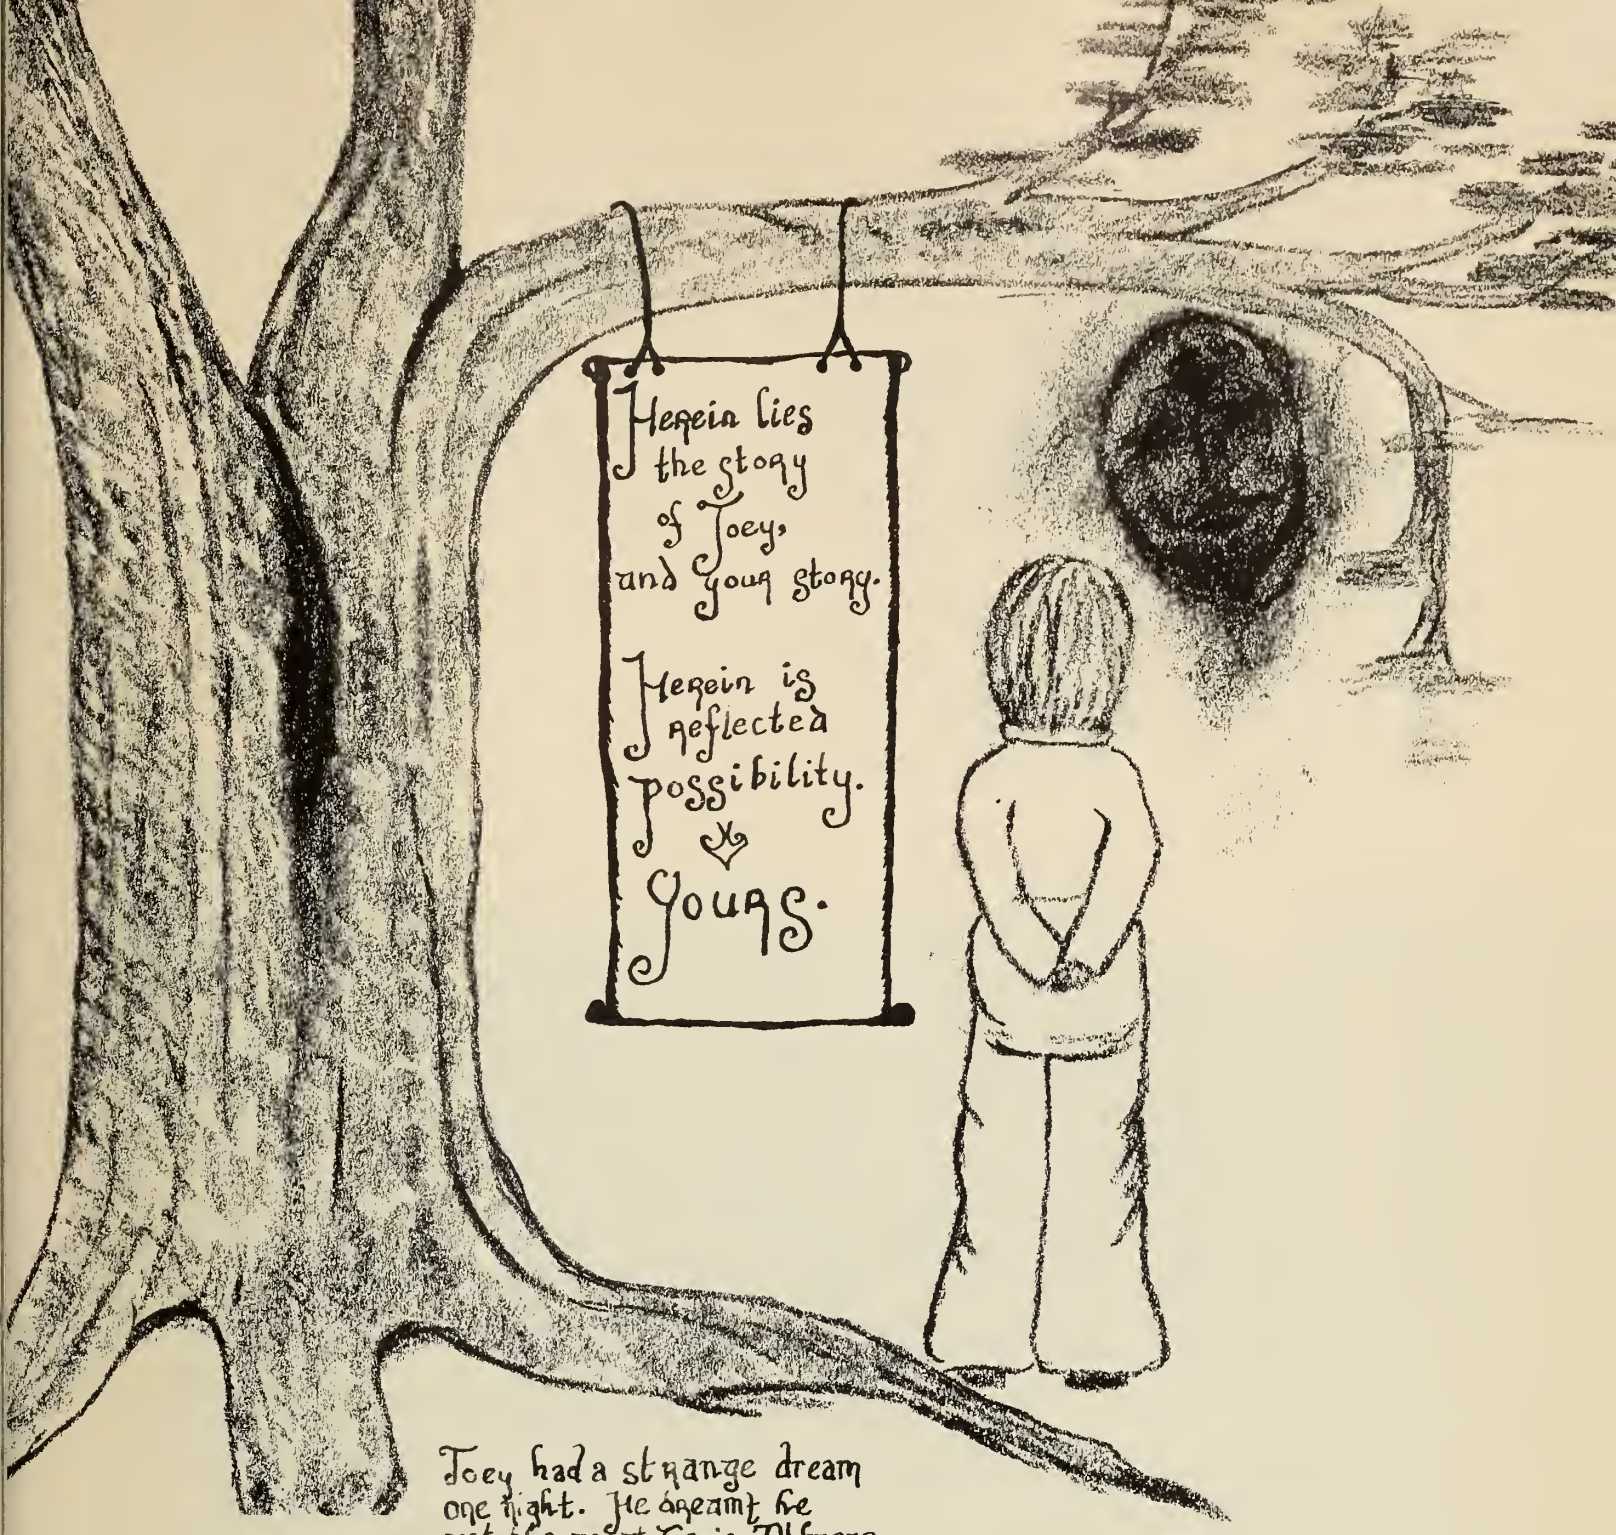
Carleton University

1979-1980

Ottawa



Joey had a strange dream one night. He dreamt he met the great Genie Alfasar, who granted him three wishes.

Joey chose to seek his future. One of Joey's possible futures was university.

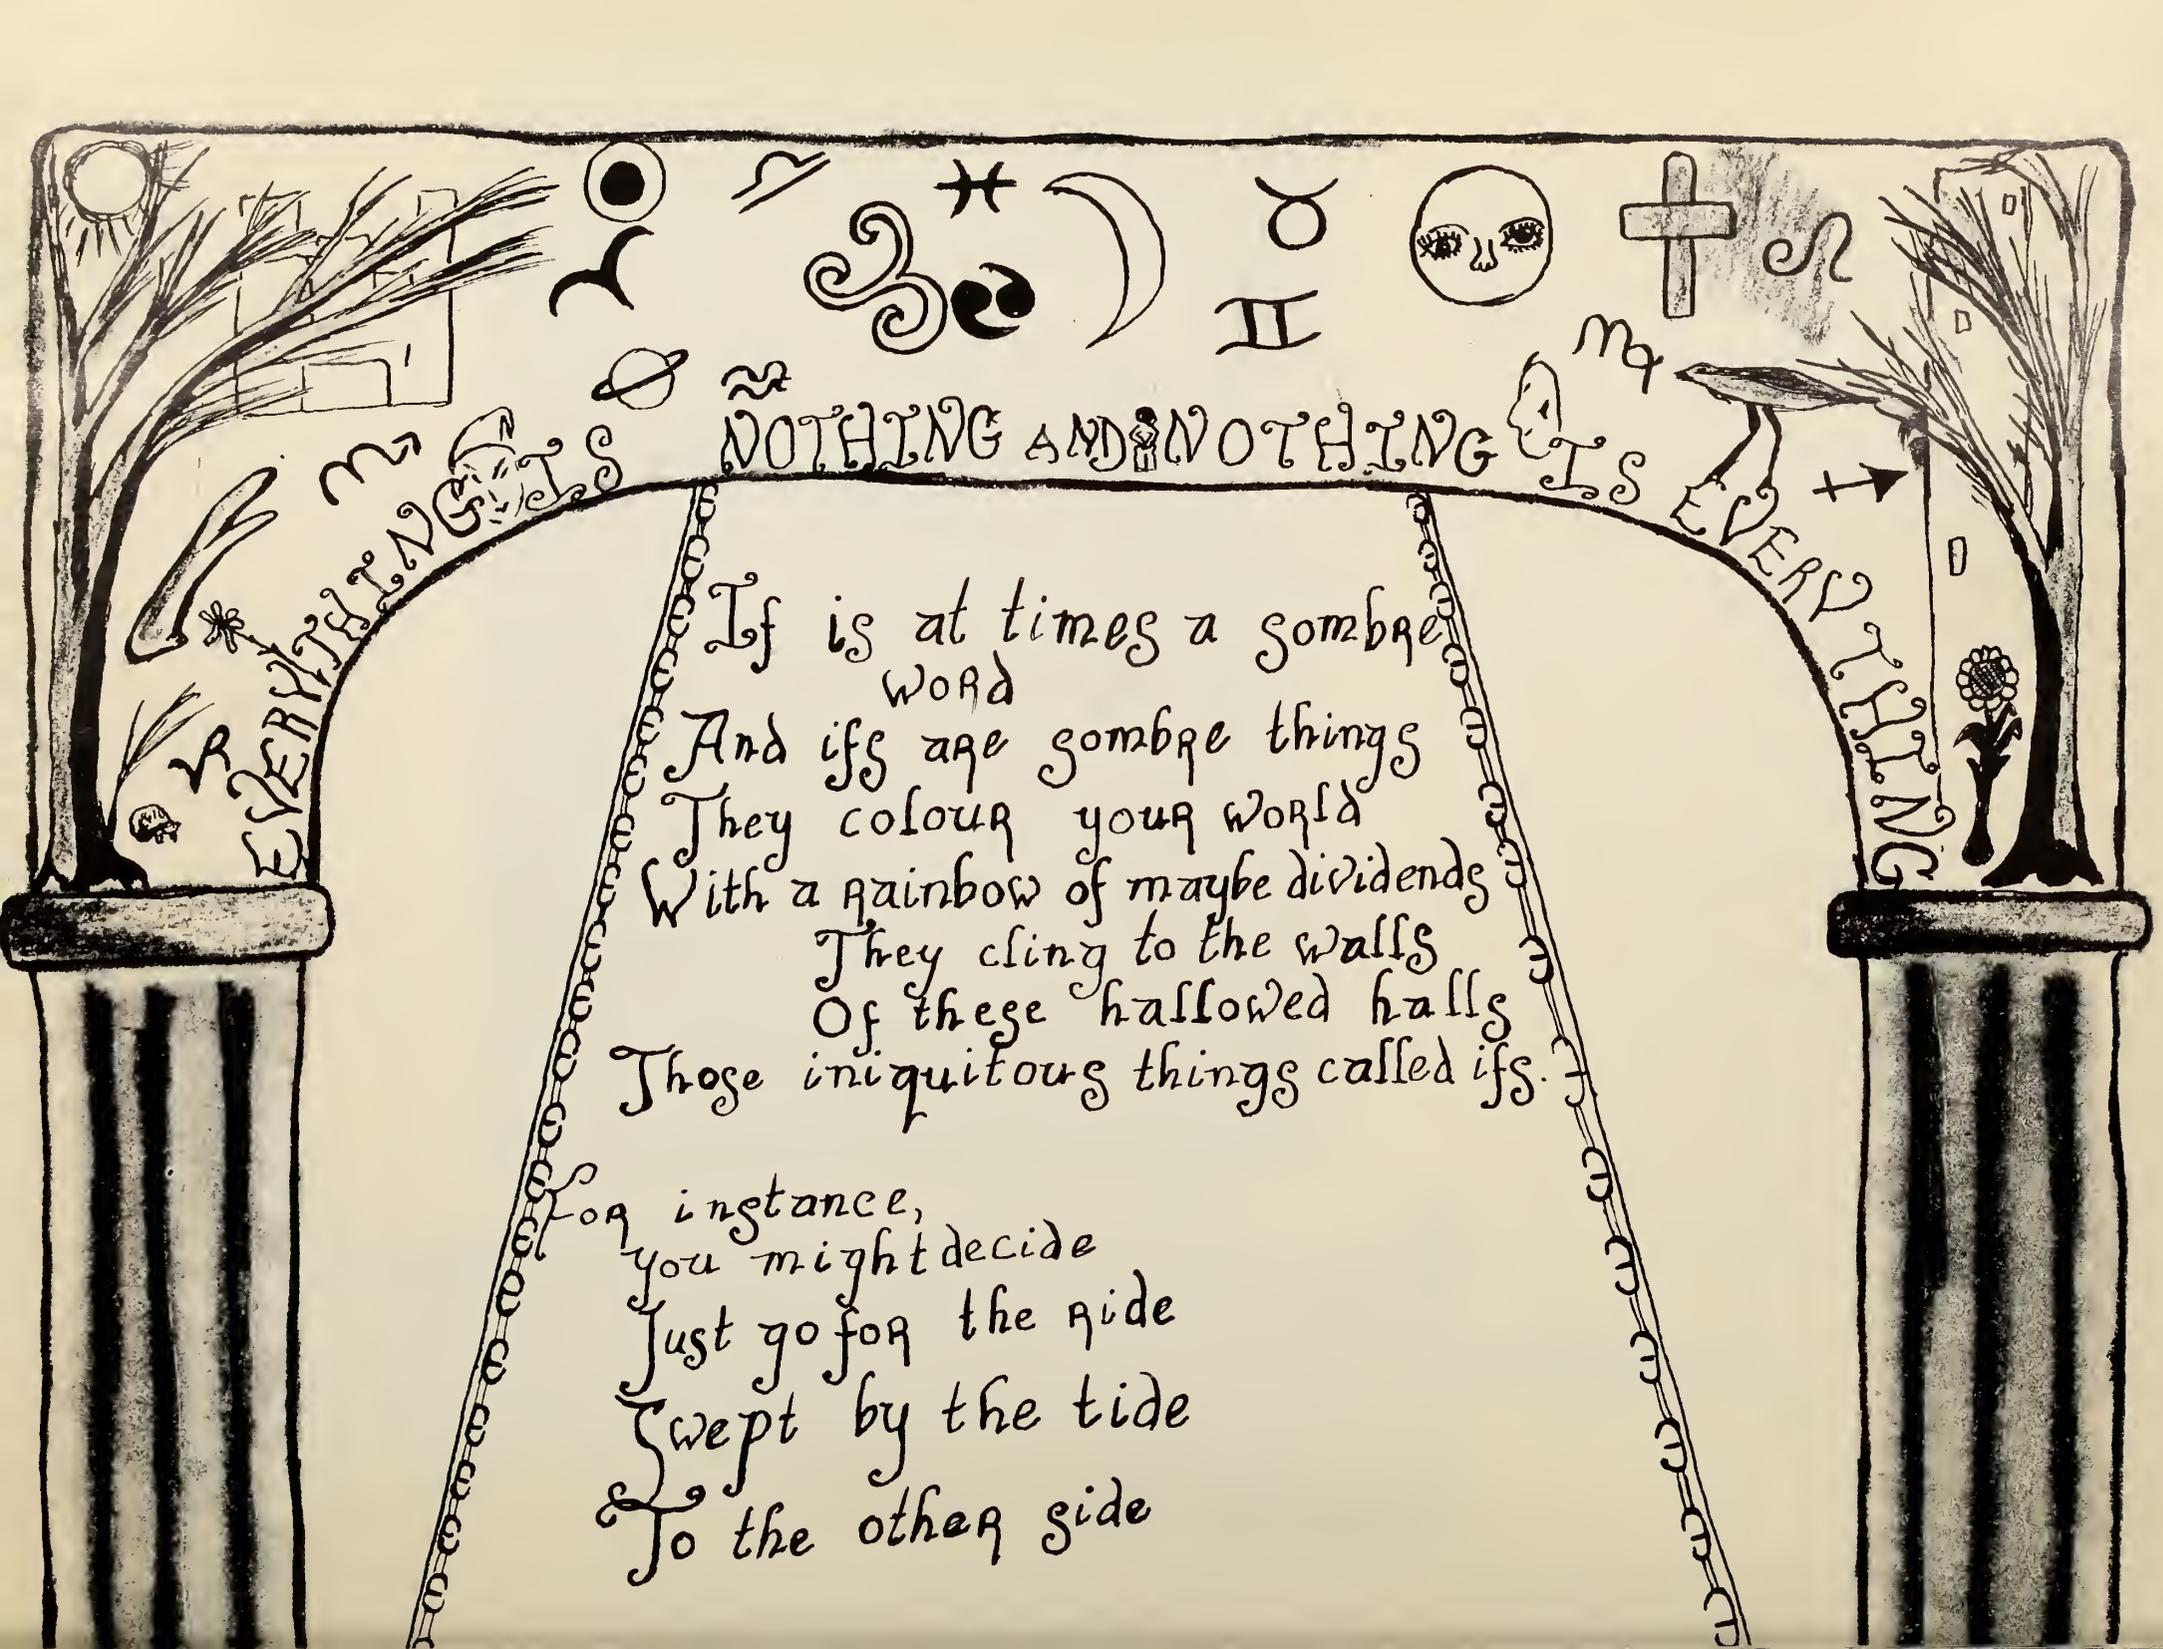
So Alfasar chose a sample University to reveal to Joey the possible pitfalls a university holds, but also all the joys and beauties it may hold if you will search, and open your eyes and mind to all your possibilities...

# So, You Want An Education Do You?

# Well...

Nothing is ever as Simple

as it seems.



EVERYTHING IS NOTHING AND NOTHING IS EVERYTHING
If is at times a sombre word
And ifs are sombre things
They colour your world
With a rainbow of maybe dividends
They cling to the walls
Of these hallowed halls
Those iniquitous things called ifs.
For instance,
you might decide
Just go for the ride
Swept by the tide
To the other side

You might decide
To make a decision
Academic precision
Artistic Witticism
Be cool, be good,
Be strong, be free
You ought, you ought,
You ought to be.

The rules abound
But you must be sound,
The decisions are your decree
These hallowed halls
Are nothing at all
Save what <u>you</u> <u>will</u> them
to be.

Joey expected there to be people studying, after all that's what university's all about, isn't it?

ALCAN

That's why I got to do these ~~progris~~ progress reports. Burt says its part of the esperiment and they will make fotostats of the ~~rip~~ reports to study them so they will Know what is going on in my mind. I dont see how they will know what is going on in my mind by looking at these reports. I read them over and over a lot of times to see what I rote and I dont no whats going on in my mind.

But anyway thats sience and I got to try to be smart like other pepul. Then when I am smart they will talk to me and I can sit and listen...

If your smart you can have lots of frends to talk to and you never get lonely by yourself all the time.

We surround ourselves
with images like
fragmets of dreams.
Our envigonment
becomes a photomontage.
The photograph is the
mirror that reflects
reality, and in the very
centre of this image is a
mirror that reflects
nothing —
nothing that holds
any meaning for us.
Nothing, that is, except
light.

waiting to be done;
all the future in the sky.

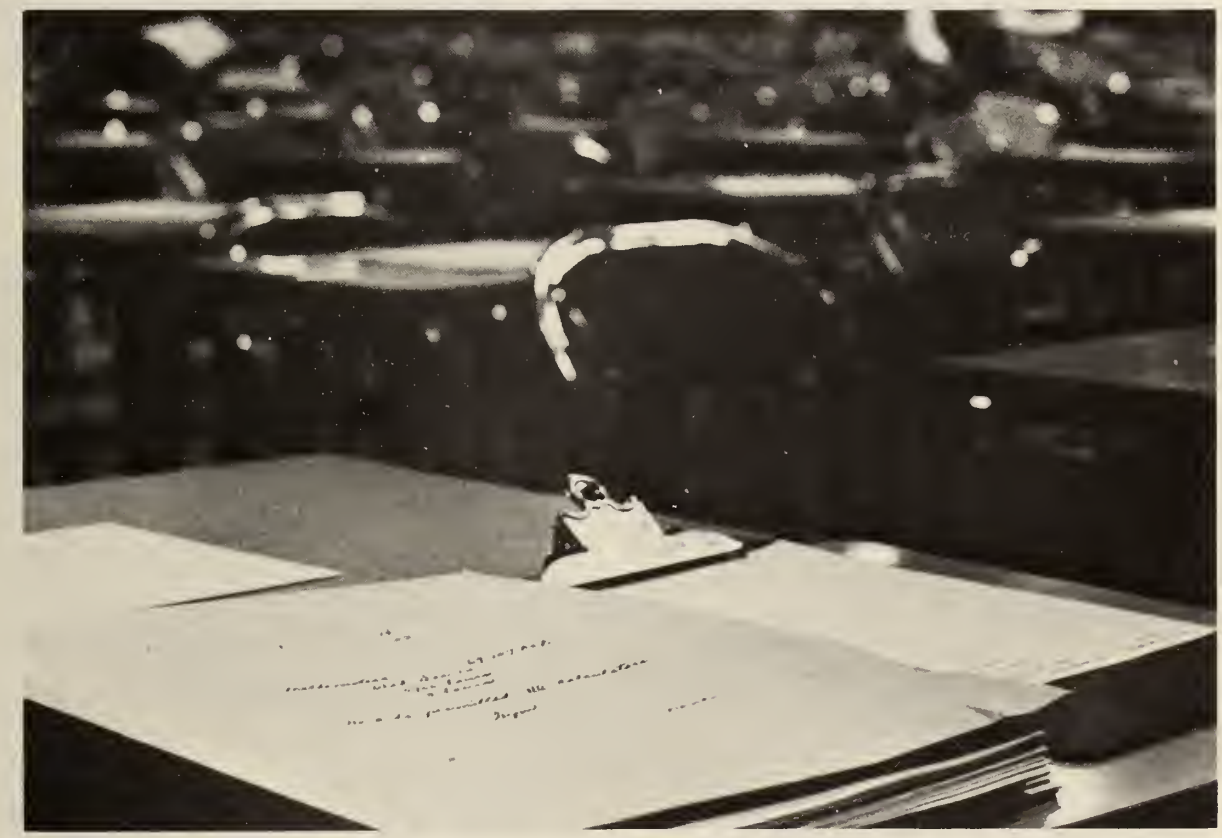
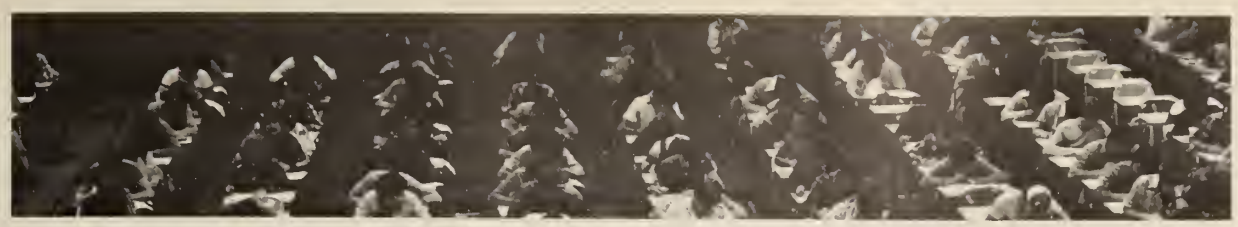
Life is a game, boy.
Life is a game that
one plays according
to the Rules.

J. D. Salinger.





The rusty hinges in your mind creak,
and bend, as stiltingly, as

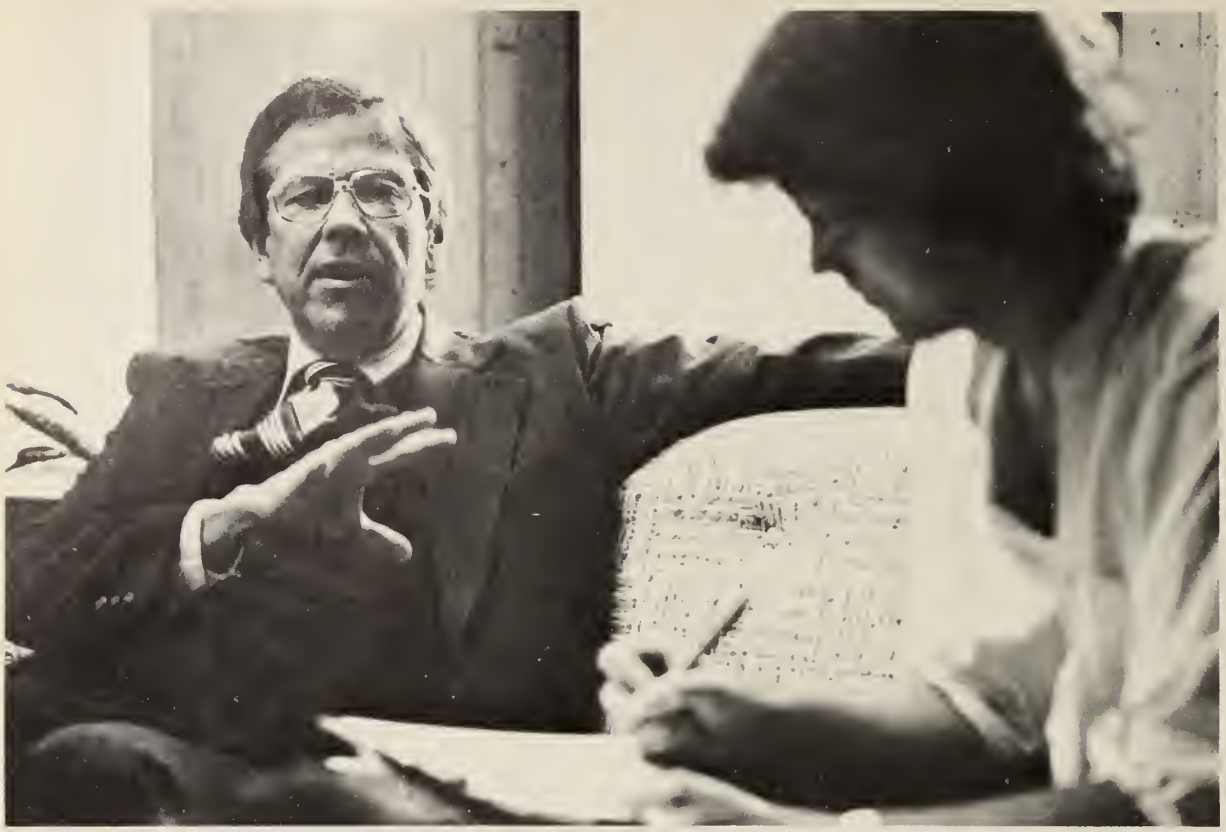
haltingly slowly, your mind opens
up to invite new thoughts,
to express, anew and new.

There's gold, and it's haunting;
It's luring me on as of old;
Yet it isn't the gold that I'm wanting,
So much as just finding the gold.
It's the great big, broad land 'way up yonder,
It's the forests where silence has lease;
It's the beauty that fills me with peace wonder,
It's the stillness that fills me with peace.

That's not all there is to university, Joey, Alfasar said. Some people actually think they learn more outside of the classroom than inside it. There's lots to learn from other people, and that's accomplished under some of the strangest circumstances at university. Believe or not, a lot of learning goes on, even in Rooster's, Mike's Place and the pub, because people interacting means the opportunity for people to learn from each other.

And then there's all of what they call extra curricular activities: clubs, sports, student government, academic societies; the list goes on and on. And all these activities are an opportunity to learn outside of the class room, making the learning experience much less insular, and making the university experience more intense and real because more first hand.

So you see, Joey, university is much more than its class rooms and a red-be-ribboned scroll at the end of four years; much more.



President of Carleton, William Beckel.

A good deal of education will take place in the student's room at home or in a dorm, at hours of his choosing. With vast libraries of data available to him via computerized information retrieval systems, his own language laboratory and his own electronically equipped study carrel, he will be freed, for much of the time, of the restrictions and unpleasantness that dogged him in the classroom.

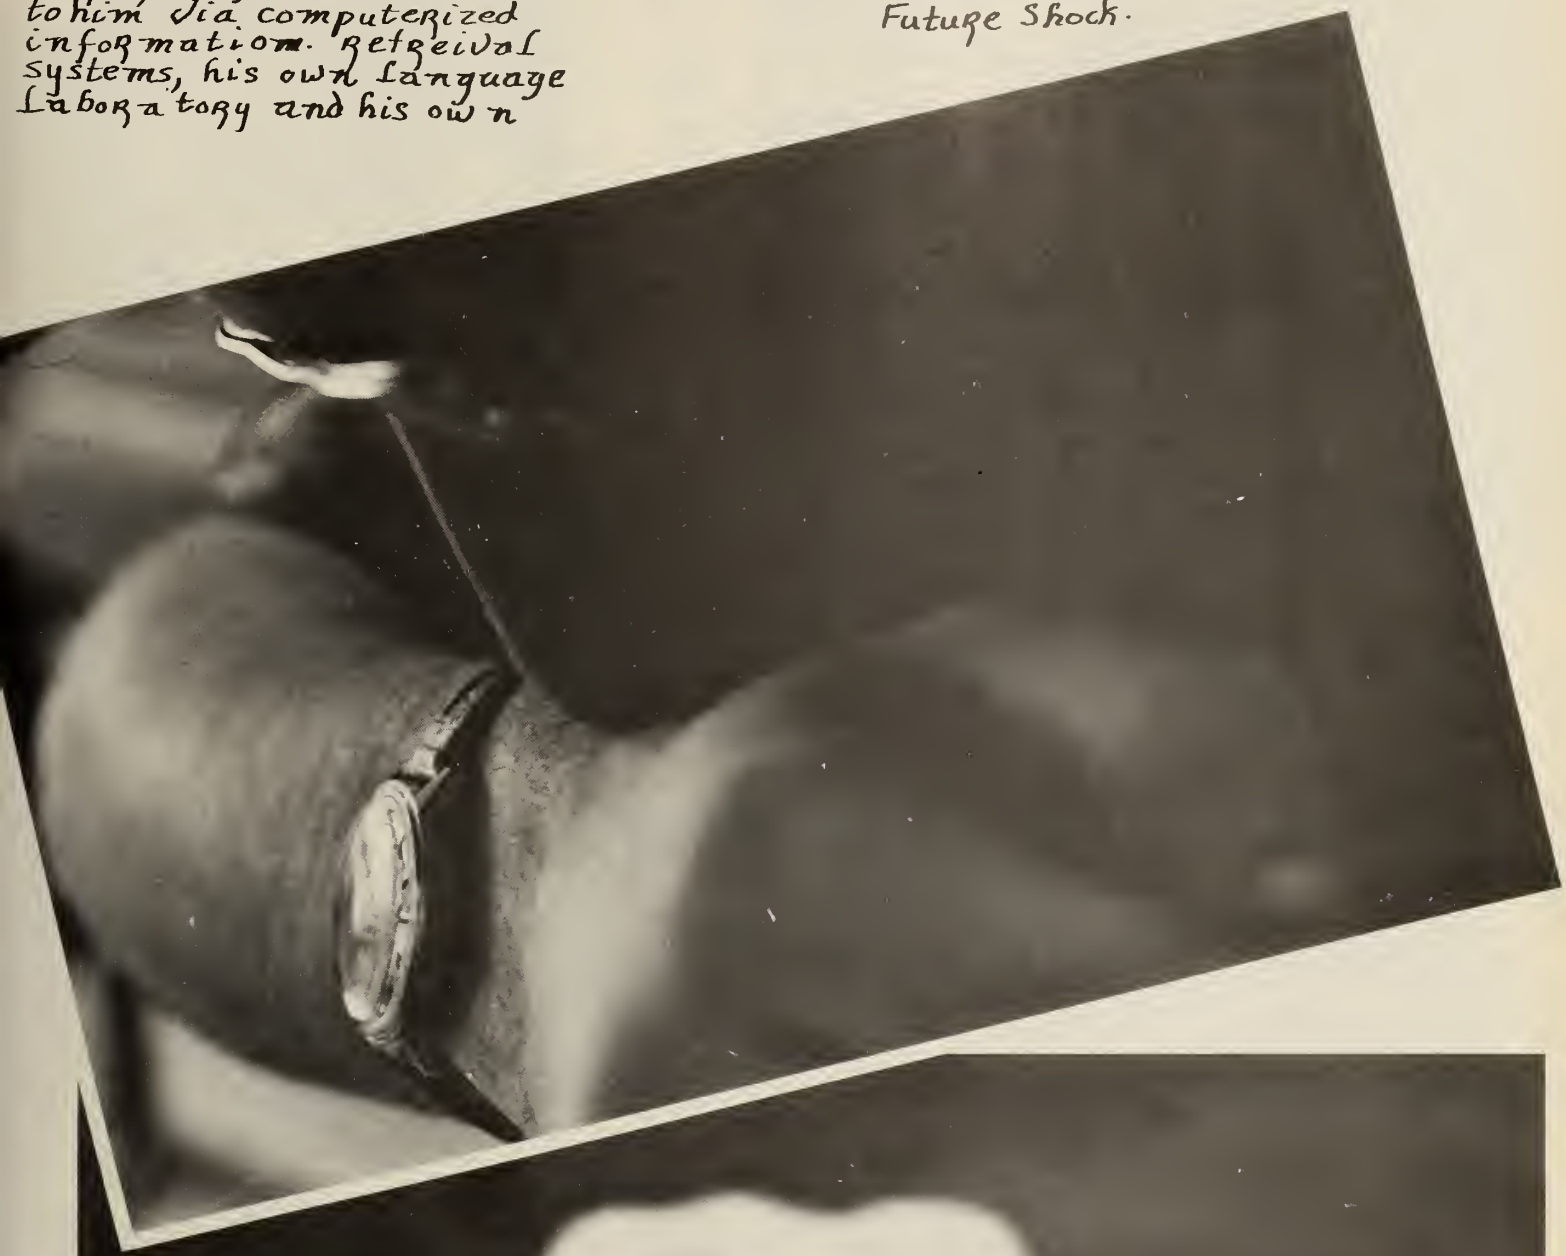
Future Shock.



You see, said Alfasaq to Joey, people at university also learn a lot about lifestyles, and that's part of the learning experience too, because there are so many people with lifestyles varying from your own.

**Is it true groups have more fun?**

No doubt about it. Especially when the group travels on a Voyageur Fun Charter.
Go for a day, a week, a month. Voyageur provides a modern air-conditioned touring coach and driver. And we make all the arrangements for your group: rooms, meals, admissions, etc.
Give us a call. A Voyageur representative will come around to see you. He'll help you decide when, where and how much.
Before you know it, you and your friends can be fun-travelling.

# SOME OF OUR ENERGY MAKES HIGHER GRADES.

Imagination. That faculty of the mind that conceives and considers the absent, as if it were present.

Perhaps the most precious of all our senses, for it stimulates the desire to shape what we want to achieve.

Imagine then what education can do.

Imperial throws a lot of its energy into the support of learning, by offering grants to Canadian universities for energy industry related research projects, in the social, environmental and technical sciences.

Not support for existing studies, but for the fresh new thinking of faculty and students.

We'll contribute nearly 2 million dollars to these and other educational projects across the country this year.

Because the encouragement and development of Canadian learning is important to the community of which we *too* are a part. After all we are what we know.

# PROTECT YOUR MONEY

Buy a GO 5 Investment Certificate.
Each year for four years, you have the option on the anniversary date of the purchase of a certificate to cash it in, or keep it.
So if rates go up, you sell. And re-invest at a higher rate.
If rates go down, you're protected at the original higher rate.
Simple as that. And Guaranty Trust pays high rates.
Give us a call.

# MOTHER TUCKER'S

## FOOD EXPERIENCE

Mother Tucker's Food Experience is a nostalgic visit to an early homestead where a large family was reared by a mother who took great pride in her kitchen. She served wholesome Canadian food in a simple yet appetizing way. Eating at Mother Tucker's table was truly a food experience.

What do we serve? Prime ribs of beef, baked country chicken, fresh salmon, shrimp and, of course, our carefully aged steaks. Every day we bake our own bread and pies according to grandma's old country recipes. In season, Mother's helpers select choice fruits and vegetables from the market stalls nearby. Every meal includes our incredible salad buffet, unlimited fresh baked bread, fresh vegetables and our famous apple pie.

On our lower level, we have reconstructed a Bytown general store complete with authentic inventory.

You'll find us in the heart of the old Byward Market with plenty of parking nearby. We're fully licensed of course.

No reservations required.

Beware the madness of the moon,
The ecstasies of midnight: each
man for himself and the devil
take the hindmost: we're not in
this world for fun.
